## Lenette Egan, Executive Director

Email: [theIBDEA@gmail.com](mailto:theIBDEA@gmail.com)

Cell: 406.459.8132

## Notes from IBDEA Headquarters

**Hello, August!** The last month of summer. Kids will be starting back to school before we know it, and last-minute vacations will occur. If August is anything like July, it will be a hot one that will be over before we know it!

On August 24, from 1:00 - 2:00 p.m. CDT, Andy Pincus will moderate our second 2022 **Virtual Open Forum**. [Register](#) now because you don't want to miss this **free member benefit!**

**Conference 2023** registration will open next month; however, you can [book your hotel room](#) now.

We are excited to announce that the **IBDEAU Carbonation 101** East Coast School is at capacity for the October class. Stay tuned for 2023 dates.

The Social Media + Website Committee is in need of **IBDEA Testimonials**. Members can submit them via the Member Portal or [here](#).

### The Reason Why You're Not Allowed To Have Soda In Space

By Kayla Dube

There are a fair number of restrictions placed on what astronauts can and can't bring into space. This is to ensure that they stay safe while out of Earth's atmosphere, where things don't exactly **work the same way** — including food. This is because many foods that act a certain way on Earth, as well as in a person's digestive system, may **cause issues** when in space. This is especially true for a certain beverage we tend to take for granted down here: Soda.
